

TechTrek announces its Partnership with DocuLynx

London, 24th February 2011 – TechTrek Limited, a global provider of data management solutions, has today announced its partnership with DocuLynx Inc to jointly develop data management solutions in Europe and Asia.

DocuLynx recently acquired the docHarbor online solution from Anacomp Inc as part of their strategy to rapidly deliver economies of scale to their document presentment offering in the fastest growing sector of Cloud Computing.

QUOTES

“TechTrek is an established user of docHarbor online technology with a fast growing customer base; the Partnership with DocuLynx will enable us to optimise docHarbor solutions and share with DocuLynx our library of client applications including e-billing, accounts payable and other business processes said Tony Gale TechTrek Limited’s Chairman. “This is a great opportunity for both businesses; between us we have the technology and the acumen to be the document repository and document BPM service of choice for any enterprise working to improve performance through a Cloud Computing infrastructure.”

Terry Wiczorek, DocuLynx President and CEO added “The TechTrek management and delivery model will bring a dynamic approach to business in Europe and Asia. Their focus on quality and security together with our knowhow and innovation will ensure their clients get a world class service for their data management solutions. We are very excited about this venture and look forward to working with TechTrek.”
